

20 YEARS AUSTRIAN GREENKEEPER ASSOCIATION

AGA-ANNIVERSARY CONFERENCE 2010 **20th – 22nd of OCTOBER 2010 in ALTLENGBACH/VIENNA**

20 years greenkeeping in Austria.

20 years continuous improvement of the golfcourse quality in Austria.

20 years hard work to make this association to one of the top in Europe.

20 years support through the industry and our national and international members.

20 years professional greenkeeper training at our Greenkeeper Academy in Warth.

20 years of reasons to be celebrated at this conference!

Prof. Dr. Helga KROMP-KOLB, Vienna University of Agriculture, AUSTRIA

How does the climate change affect our grass types.

Dr. Karl DANNEBERGER, Ohio State University, USA

Effects of low light conditions on turfgrass growth.

Mark HUNT, Headland Amenity Ltd., ENGLAND

Natural methods to reduce dew on greens.

Gordon IRVINE, Master Greenkeeper, ENGLAND

“Finding Askernish” – A golf course designed in 1891 by Old Tom Morris is re-vitalised.

Dr. Albrecht KOPPENHOFER, Rutgers University, USA

New synthetic insecticides, biological and other alternatives for the control of insects.

Melvin B. LUCAS, CGCS, USA

Development of greenkeeping in Austria through the eyes of a CGCS and a GCSAA past president.

Look forward with us to a informative, surprising and innovative conference 2010!!
